AROOM VENDING believes that success is a result of hard work, and prospect comes with challenge. To maintain high-speed development, the company constantly pursues efficiency and innovation. brand will certainly be recognized as a famous brand in the world. This is due to continuous innovation to achieve a better tomorrow.

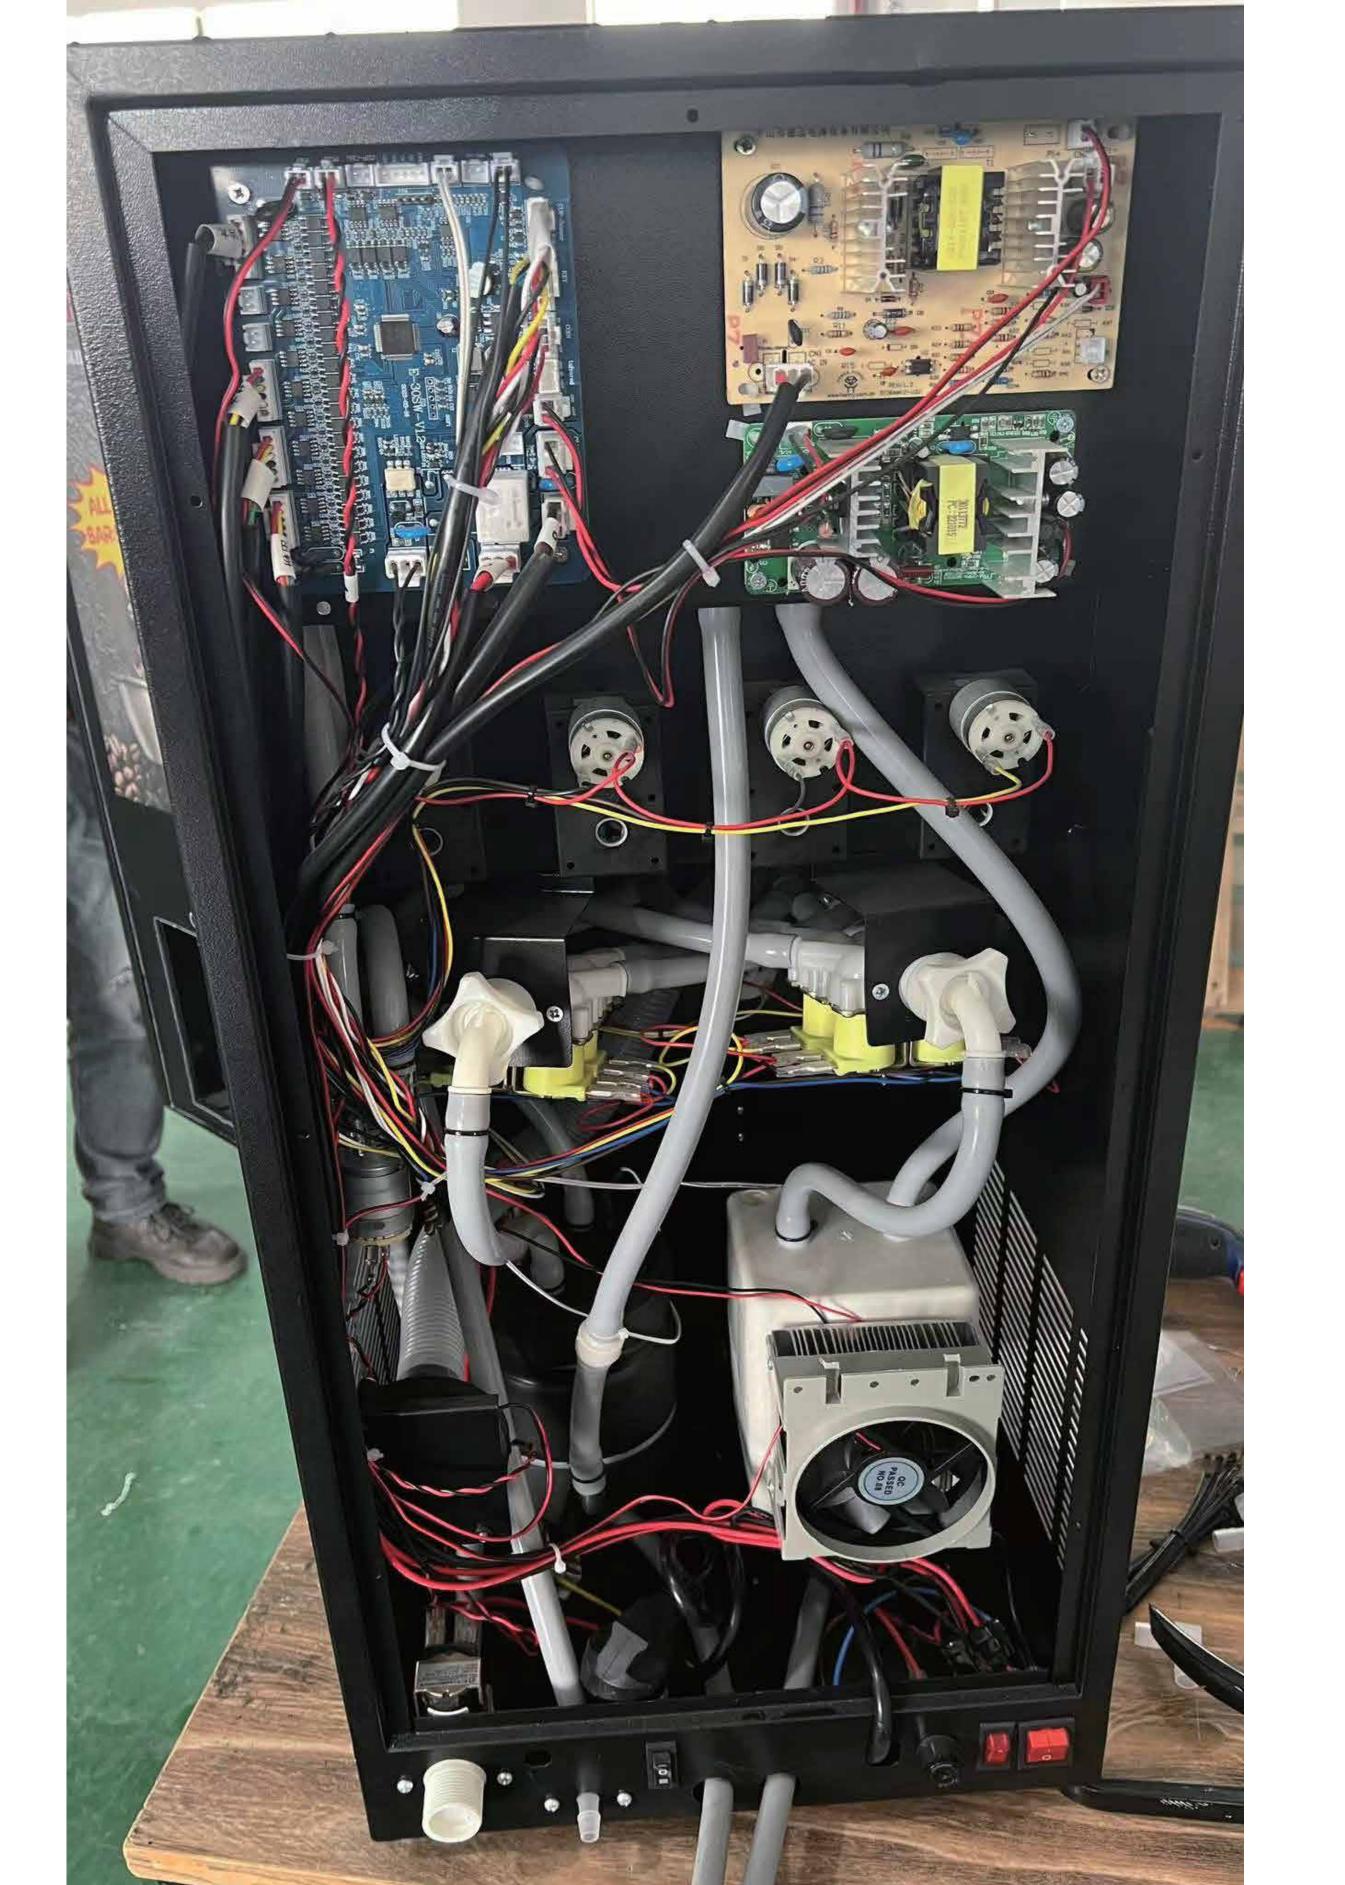

### Making Your Life Easier

# A ROOM (SHENZHEN) DEVELOPMENT LIMITED

Our company is a large high-tech enterprise with offices in Shenzhen, China and Riyadh, Saudi Arabia as well as two factories in China. Our company converts stainless steel and copper sheet, tube, rod, and brass sourced from China into commercial vending machines. The highly skilled engineers at AROOM VENDING fabricate, machine, and assemble nearly 99% of the components that comprise an AROOM VENDING machine in our factory.

Being a member of an international group dedicated to the development of vending machines, our team is able to design and manufacture vending machines to meet your specific specifications and design requirements. As a company dedicated to progress and development, we value our clients' feedback on our products as well as the latest technology that our competitors and business partners are bringing to the marketplace. We are proud to provide CE, CB, RoHS, and SASO certificates for all our machines.
